

INDUSTRIAL VACUUM SOLUTIONS FOR COFFEE PRODUCTION AND PROCESSING

HIGH VACUUM
PERFORMANCE

TAILOR-MADE
SOLUTIONS

REDUCED
CLEANING TIMES

VACUUM CLEANERS

Remove dust and coffee residues from machines in your production department and maintain them easily.

- ✓ **Cleaning and maintenance of machinery**
- ✓ **Highest production efficiency**
- ✓ **Ease of use**

PNEUMATIC CONVEYORS

Transport coffee (in beans, grains, or powder) throughout your production and feed your machines in a totally safe manner.

- ✓ **Eliminate risks of contamination**
- ✓ **Zero alteration or demixing of the product**
- ✓ **Safety and health in the workplace**

CENTRALIZED SYSTEMS

Ensure **optimal cleaning** of the entire production department, even over long distances.

- ✓ **Cleaning of all production**
- ✓ **Coverage of large distances**
- ✓ **Suction at several points**

INDUSTRIAL DUST COLLECTORS

Extract coffee powder from the filling machine. The air re-introduced into the system is safe and controlled.

- ✓ **High filtration efficiency**
- ✓ **Dust-free working environment**
- ✓ **Certified safety**

DELFIN VACUUM SOLUTIONS

CENTRALIZED SYSTEMS

A central vacuum system makes it possible to remove and transport material from one area to another and to discharge it at a chosen point. Delfin's centralized vacuum systems allow material to be vacuumed even over long distances or at several points simultaneously.
