

451 DS BL - INDUSTRIAL SINGLE PHASE

316 X 461

- ✓ Complete steel construction
- ✓ Compact and mobile
- ✓ Simultaneous suction of solid, dust and liquid material
- ✓ Accessory kit included

SUCTION UNIT

Power	kW	1,1
Max water lift	mmH ₂ O	2.250
Max air flow	m ³ /h	215
Suction inlet	mm	80
Noise level (EN ISO 3744)	dB(A)	76

FILTER UNIT

Filter Type	Star
-------------	------

COLLECTION UNIT

Transport capacity	kg/h	45
--------------------	------	----

VOLUME

Dimensions	cm	58x63x110 h
Weight	kg	54

SUCTION UNIT

The motor head is equipped with a Brushless motor: the lack of carbons allows the use of the machine even in explosive hazardous areas. The motor is protected by a series of filters and it is turned on by an independent switch placed on a soundproofed and robust metal motor head.

The motor head includes a vacuum gauge and tension power lights as standard.

FILTER UNIT

The large surface star antistatic filter, located inside the filter chamber, is made of polyester and provides high resistance against clogging and passage of fine dust.

COLLECTION UNIT

The unit is manufactured with thick painted steel for improved sturdiness and long-lasting lifetime

OPTIONALS

- ✓ STAINLESS STEEL COLLECTION TANK
- ✓ EARTH GROUNDING
